Report of the interactive lecture cum workshop on "Intellectual Property Rights (IPR), Indian Patent System, PCT application filing, and other issues relating to IPR"

Saturday, 10th September, 2022, 03:00 PM

Intellectual Property (IP) is the fuel that powers the engine of prosperity, fostering invention and innovation. Intellectual Property is now being used not only as a tool to protect creativity and generate revenue but also to build strategic alliances for socio-economic and technological growth. The increasing significance of intangible assets in the global economy is driving universities and academicians to actively manage their IP as a key driver for building and sustaining their competitive advantage and achieving superior performance. Despite significant contribution towards R&D by various universities, teachers, students, and scientists of Research & Development organizations, Universities and other institutions, the filing of IP applications in India is still not very large in number.

Therefore, to upgrade the IP skills of faculty, staff, research scholars, and students, as well as to foster the creation and protection of innovations and creativity, Swami Rama Himalayan University (SRHU) organized a one-day interactive lecture cum workshop with in-depth training on Intellectual Property Rights (IPR) under the aegis of the Uttarakhand Council of Science & Technology (UCOST) at SRHU on 10th September 2022.

The interactive lecture cum workshop commenced with welcoming of the gathering by Dr. Vinita Kalra, Officer-in Charge, Research & Ph.D. cell, SRHU.

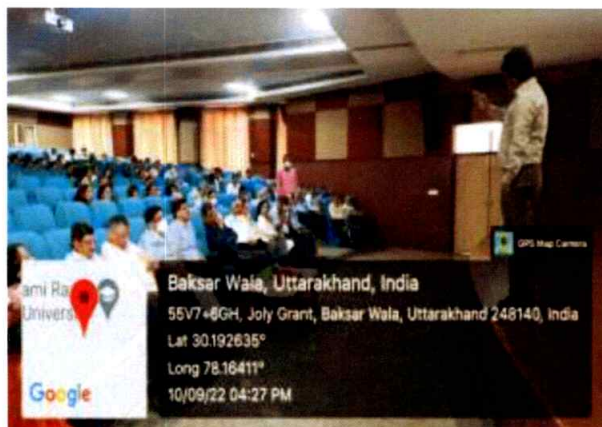

The Hon'ble Vice Chancellor, Swami Rama Himalayan University, welcomed and felicitated the Guest speaker Dr. Yashawant Dev Panwar, Head, PFC-TIFAC, Department of Science & Technology, Govt. of India, New Delhi.

Dr. Rajendra Dobhal, Director, Strategic Planning and Research & Development of SRHU, introduced the guest speaker. He addressed the gathering stressing on the need of promoting innovation at the University, and protection of these through IPR. He encouraged faculty members and scholars to invest their knowledge and skills in patentable research works.

Dr. Yashawant Dev Panwar, the esteemed guest speaker, addressed the participants speaking at length on the topic “Intellectual Property Rights (IPR), Indian Patent System, PCT application filing, and other issues relating to IPR”.

Dr. Panwar initiated the proceedings of the workshop by discussing the History of Intellectual Property from beginning to the present evolving phase. He kept the audience focused and spellbound as he gave experiential examples about IPR and its evolution in India, explaining them in his own enthralling manner. He interspersed his presentation with anecdotes on IPR. The speaker elucidated how knowledge and technology generated in universities can have immense economic and societal benefit. He explained that for great ideas to flourish, they need to make their way from universities and research centers into the hands of the consumer.

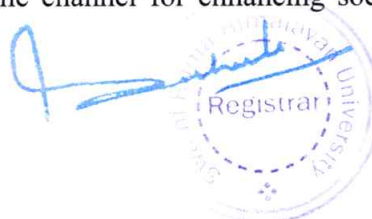

He also interacted with the gathering through questionnaire for "Intellectual Property Rights (IPR), Indian Patent System, PCT application filing, and other issues relating to IPR. The interactive session cleared many doubts and misgivings of the participants. Additionally, many inputs were shared by the Hon'ble Vice Chancellor and Dr Rajendra Dobhal.

This workshop helped to kindle the minds of the faculty, and students of the university as to how IP issues based on knowledge transfer can help get discoveries and innovations from the lab to the marketplace. The participants of the workshop were able to understand the procedures to convert their research outcomes into patents.

Emphasis was placed on the need of greater awareness of IPR by academicians as they are the ones who foster young minds who further could be the channel for enhancing social, economic

and cultural development, as well as promoting for entrepreneurship via IPR.

The proceedings were very interactive throughout the session and were successful in addressing multiple queries of the participants thus further spreading awareness related to Intellectual Property Rights. A total of 175 participants comprising of faculty, staff, Ph.D. scholars, students and other invitees of SRHU joined in the interactive session.

At the culmination of the presentation and deliberations, Dr. Rajendra Dobhal kindly imparted the vote of thanks to the distinguished speaker.

The details of the interactive lecture cum workshop was also widely covered by various print media at the National/State level. Extracts from a few of these are also provided for records.

Rajnath Singh: India rapidly moving towards consolidating Armed Forces

NEW DELHI, 12 Sept: Union Minister for Defence, Rajnath Singh, said India is rapidly moving towards consolidating its armed forces. He said the government is taking steps to streamline the defence forces and improve their efficiency. He mentioned that the government is planning to merge the Indian Army, Indian Air Force, and Indian Navy into a single unified command structure.

K'taka surgeon runs for 15 mins, beats traffic to perform operation on time

BANGALORE, 12 Sept: A surgeon in Karnataka ran for 15 minutes to reach the hospital on time to perform an operation. The incident occurred during a traffic jam in the city. The surgeon, Dr. [Name], was running to reach the hospital on time to perform an operation on a patient. He managed to reach the hospital in 15 minutes, despite the heavy traffic.

एसआरएचयू जौलीवाला में सोमवार को कार्यक्रम का आयोजन किया गया।

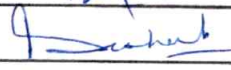

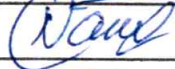

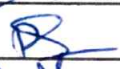

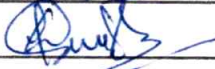

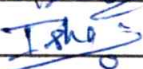

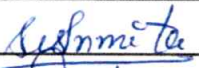

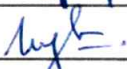

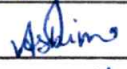

छात्र-छात्राओं ने बौद्धिक अधिकारों के बारे में जाना

जौड़ीवाला, संवाददाता। स्वामी राम हिमालयन विश्वविद्यालय में यूकोस्ट के सहयोग से इंटेलैक्चुअल प्रॉपर्टी राइट पर सोमवार का आयोजन किया गया। इसमें प्रतिभागियों को बौद्धिक संपदा अधिकार और इसके महत्व के विषय में जानकारी दी गयी।
 सोमवार को एसआरएचयू के ऑडिटोरियम में सोमवार का उद्घाटन कुलपति डॉ. विजय धम्मना ने किया। उन्होंने कहा कि हमारे यहां पारंपरिक ज्ञान का भंडार है, लेकिन आमजन को पेटेंट संबंधित कानूनों की जानकारी नहीं है। उन्होंने बौद्धिक संपत्ति के अंतर्गत पेटेंट, कॉपीराइट, ट्रेडमार्क के बारे में कहा कि वैश्विक स्तर पर ही रहे बदलाव को देखते हुए इन अधिकारों के बारे में साजग रहने की जरूरत है।
 विज्ञान और प्रौद्योगिकी विभाग नई दिल्ली के प्रमुख डॉ. यशवंत देव पंवार ने कहा कि बौद्धिक संपदा को दिमागी उपज कहा जाता है, इसका उपयोग अविष्कारकर्ता ही कर सकता है। उन्होंने बौद्धिक संपदा अधिकार, भारतीय पेटेंट प्रणाली, पीसीटी आवेदन दाखिल करने और आईपीआर से संबंधित अन्य विषयों के लिए प्रश्नावली के माध्यम से लोगों से संवाद किया। कहा कि शिक्षार्थियों की ओर से आईपीआर के बारे में अधिक जागरूकता की आवश्यकता है, क्योंकि वे युवा दिमाग को विकसित करते हैं जो सामाजिक, आर्थिक और सांस्कृतिक विकास को बढ़ाने के साथ-साथ आईपीआर के माध्यम से उद्यमिता को बढ़ावा देने के लिए माध्यम बन सकते हैं।
 मीके. ए. सी. कुलपति डॉ. विजय देव पंवार, प्रिंसिपल डॉ. सुशीला शर्मा, डीन विज्ञान प्रौद्योगिकी, पर्यावरण एंड रिसोर्स इंजीनियरिंग डायरेक्टर डॉ. राजेश कुमार आदि उपस्थित थे।
