Report

Department: Computer Science and Engineering

Event Name: Career Counselling Workshop by Rubico IT Ltd, Haridwar

Event Date: 20th November, 2023

Duration: 3 hours

Time: 11:00 AM to 2:00 PM

Total Students: 119 (B.Tech, MCA, BCA)

Under the Supervision of: Dr. Pramod Kumar, Principal, HSST

Organizing Team Members: Mr. Ayush Sharma (Placement Coordinator at SRHU) and T&P Cell, Mr. Gaurav Sharma (Placement coordinator HSST), Dr Pooja Baloni, Mr. Sanjay Kumar, Mr. Rachit Lakhera, Ms. Shefali Khatri.

Venue: HSST Auditorium and LT-3

Introduction:

The Himalayan School of Science and Technology (HSST), Swami Rama Himalayan University, proudly hosted Career Counselling Workshop by Rubico IT Ltd, on 20th November 2023. This vital initiative aimed at bridging the gap between academic learning and industry demands. It empowers students by providing insights into emerging trends like Prompt Engineering for Developers and A WS Three-Tier Applications, enhancing their technical knowledge and employability skills. With expert guidance from professionals like Mr. Kundan Negi, Mr. Lokesh Gupta, Ms. Neha Prajapati, and Ms. Divya Sharma, the session motivates students to pursue excellence and equips them with practical strategies for career development. By fostering industry-academia collaboration, the workshop prepares students to navigate the evolving professional landscape with confidence and success.

Event Proceedings

The session commences with a warm welcome and introduction by the host. It includes a brief overview of the workshop's objectives and an acknowledgment of the esteemed speakers from Rubico IT Ltd, who have graciously joined us to share their expertise. The lighting of the lamp ceremony took place, symbolizing the pursuit of knowledge and enlightenment. Mr. Ayush Sharma Placement Coordinator at SRHU, has welcomed the dignitaries with flower saplings. This symbolizes growth, nurturing, and the cultivation of knowledge values that align perfectly with the workshop's mission to empower students for their professional journey.

This session emphasizing the importance of career counseling and the collaboration between academia and industry. The first session by Mr. Kundan Negi (HR Lead) focused on career development strategies and the skills required to thrive in the evolving industry landscape. Following this, Mr. Lokesh Gupta (Technical Lead) delves into Prompt Engineering for Developers, offering technical insights and its relevance in the current IT domain. Ms. Neha Prajapati (HR)

addresses the students on career readiness, covering essential skills for interviews and personal growth. Finally, Ms. Divya Sharma (Cloud and DevOps Engineer) has provided a detailed explanation of AWS Three-Tier Application, sharing practical knowledge about its architecture and industry applications. After these informative sessions, students have the opportunity to engage directly with the speakers during an interactive Q&A session. This allowed them to clarify doubts, seek guidance, and gain deeper insights into their fields of interest.

Dr. Pramod Kumar, Principal HSST recognized the hard work and coordination of HSST faculty and staff in ensuring the success of the event. He extended his appreciation to the students for their enthusiastic participation, which contributed to making the workshop both interactive and impactful.

In his closing remarks, Dr. Pramod Kumar sir, Principal HSST, emphasized the importance of such sessions in shaping the future of the students and encouraged them to apply the knowledge gained during the workshop to pursue their professional aspirations with determination and confidence. He expressed optimism for future collaborations with Rubico IT Ltd and similar organizations to continue offering students such enriching opportunities.

Highlights

• Prompt Engineering for Developers

An in-depth session on Prompt Engineering, its significance in modern AI development, and practical use cases in application development.

Insights into crafting effective prompts for AI models and understanding their real-world applications in various industries.

• AWS Three-Tier Application

Detailed explanation of the Three-Tier Architecture in AWS, covering presentation, logic, and data storage layers. Practical examples and best practices for implementing scalable and efficient cloud-based applications.

Use of DevOps tools to automate and streamline deployment in AWS environments.

• Cloud Computing and DevOps Integration

Focus on the significance of Cloud and DevOps in building modern IT infrastructures.

Demonstrated the integration of development and operations to achieve faster and more reliable software delivery.

Conclusion

The Career Counselling Workshop by Rubico IT Ltd effectively equipped students with technical insights into Prompt Engineering and AWS Three-Tier Applications, enhancing their industry readiness. The sessions bridged the gap between academic concepts and real-world technology applications. Students gained hands-on knowledge in emerging fields like cloud computing and AI development. Overall, the workshop empowered students with the technical skills and career strategies needed for success in the IT industry.
