3. Objectives of the Camps

- To provide comprehensive eye screening to local residents.
- To detect refractive errors, cataract, glaucoma suspects, and other ocular morbidities.
- To increase awareness regarding eye hygiene and the importance of regular check-ups.
- To provide hands-on field training to participating students.

4. Activities Conducted

- Vision assessment using Snellen charts.
- Screening for refractive errors and common eye diseases.
- Preliminary examination of anterior segment using torchlight.
- Counseling on preventive eye care, nutrition, and protective measures.
- Referral of suspected cases to Himalayan Hospital for further evaluation.

5. Student Participation

Each camp had **two student participants**, who were involved in:

- Registration and documentation
- Visual acuity testing
- Assisting the ophthalmic team
- Educating community members

Their involvement strengthened practical skills and understanding of community eye-care delivery.

6. Outcomes

- Successful completion of repeated community eye-health interventions across Bhikkawala region.
- Identification of individuals requiring further ophthalmic care and referral.
- Significant increase in awareness about preventive eye care in the rural population.
- Enhanced clinical, communication, and screening skills among participating students.

7. Conclusion

The Comprehensive Eye Assessment Camps conducted at Shanti Dham, Bhikkawala by the Department of Ophthalmology, HIMS, SRHU played a significant role in improving community eye health.

The repeated outreach efforts reflect a strong commitment to preventive care, early detection, and community engagement, along with contributing to student learning and service-based education.
